Characteristics 特點

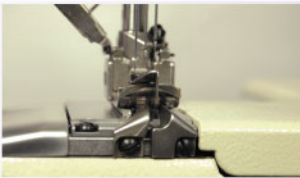

Built-in LED light design, convenient and saving the power.
(For servo motor models)
內藏式 LED 燈照明設計，既方便又節省工廠電源(伺服馬達系列)。

The small size cylinder bed with the Circumference only 178mm which is easy to sew any small size tubular knitwear goods more convenient.
細筒圓周只有178mm，容易車縫小口徑的圓筒型針織布，流暢美觀。

"Fully sealed side cover" can prevent from the oil leakage problem, and the special short distance from side cover to presser foot with only 32mm is more convenient for sewing.
採"密封式側蓋設計" 無漏油之疑慮，特殊短距橫筒設計，側蓋到壓腳邊只有32mm，車縫更加便利。

With presser foot movable sewing guide and fabric guide makes seams covering stitch more quick and beautiful.
活動式壓腳舌及牛角式導布器，埋壓拷克骨車縫更快速、美觀。

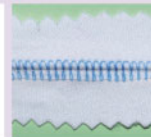

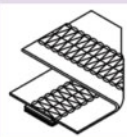

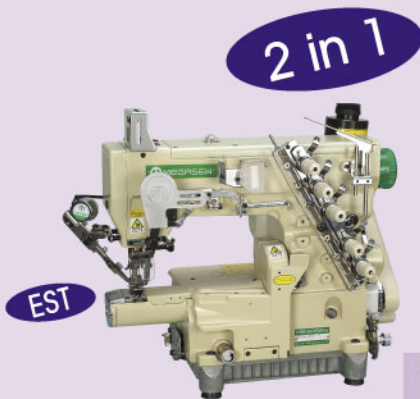

Micro adjustment of differential ratio feeding makes the ratio adjustment more precise.
微調式差動比調整，可精確調整差動量。

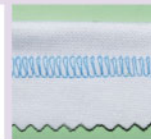

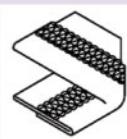

Round shape stitch length regulator can adjust the stitch length precisely while the machine is being operated.
圓形粗細針調整鈕設計，可在車縫進行中，依需要精確地調整縫目長短。
